

McGraw Hill's Music Studio
<https://www.mheducation.com/prek-12/explore/music-studio.html>
for Tutorials, Games, and Discovery/Stimulation

The image displays a musical score in 2/4 time with a key signature of one sharp (F#). The melody consists of a sequence of notes: G4, A4, B4, C5, B4, A4, G4, F#4, E4, D4, C4. The score is divided into two measures, labeled '1.' and '2.'. Below the notation are five cartoon rabbits in red overalls and blue shirts, each in a different pose. Below each rabbit is a letter in a colored triangle: A (red), B (blue), A (red), C (yellow), and A (red).

McGraw Hill's Music Studio offers several visual aids when teaching students music. This includes follow-along sheet music for the most consistent uses. But it also includes visuals of instruments and multiple styles of listening maps. One such version is the one pictured above. This can be used to help review the concept of forms in music. Other versions can be used to help review vocabulary categories such as instruments and tempos.

Music Lab
<https://musiclab.chromeexperiments.com/>
for Games and Discovery/Stimulation

Music Lab is a tool used to help younger students create music. Where sheet music and other traditional methods might intimidate, Music Lab makes writing music approachable in a different way. The song maker pictured above is just one of the tools in the website's software. Other tools offer creation and breakdown of chords, arpeggios, etc. This site caters to all learning styles through the creative process.
